

US · peer comparison · reference 2026-10-10

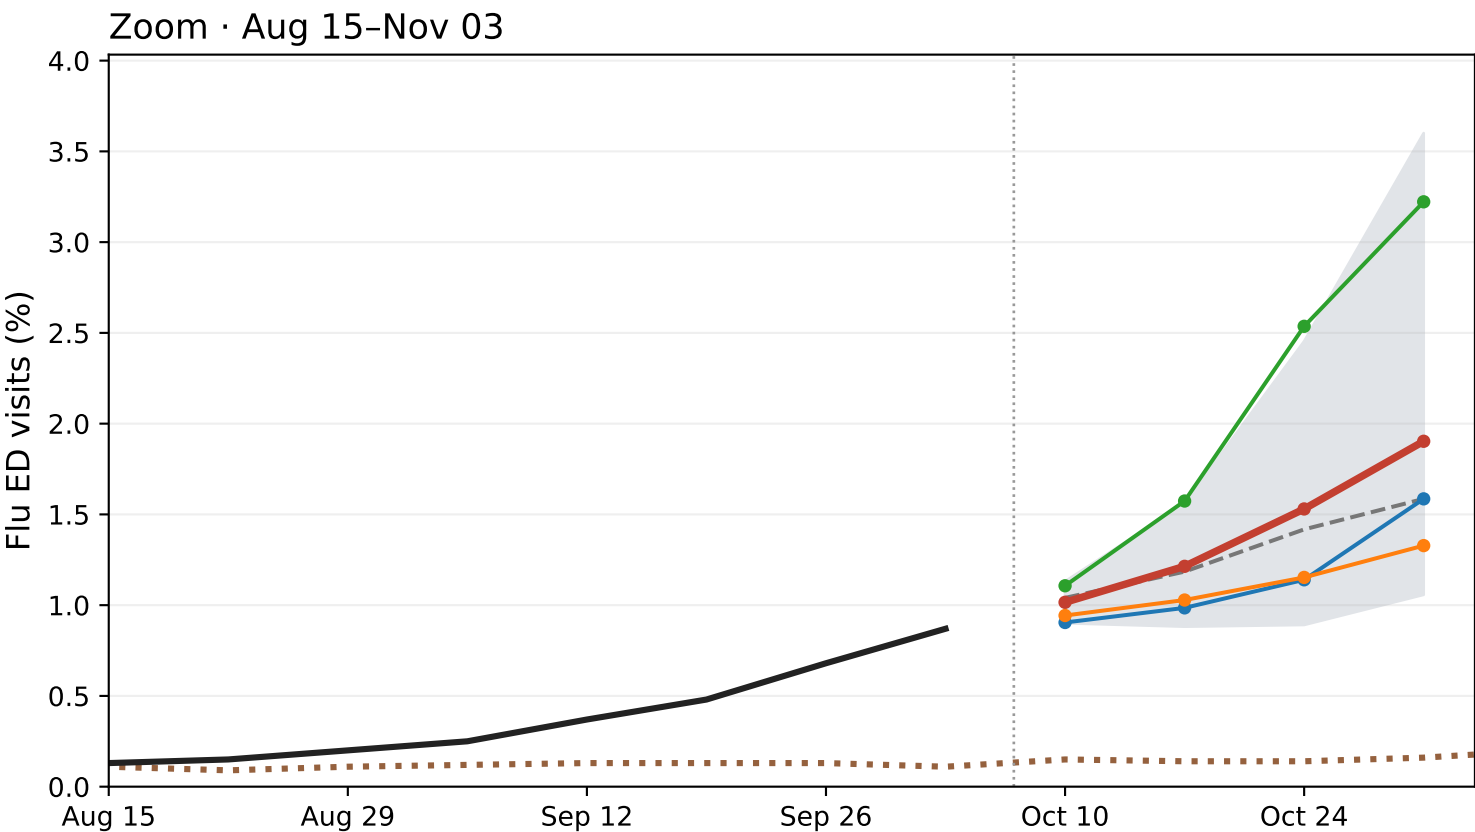

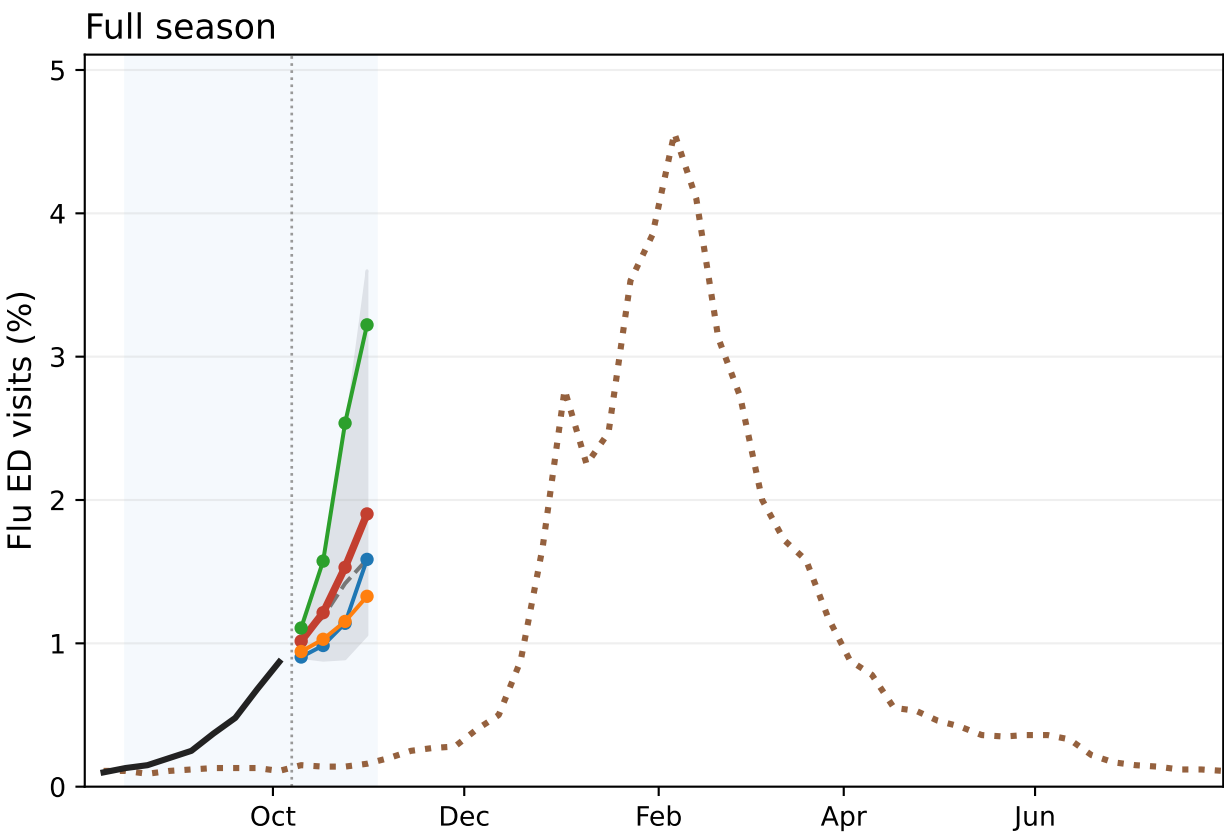

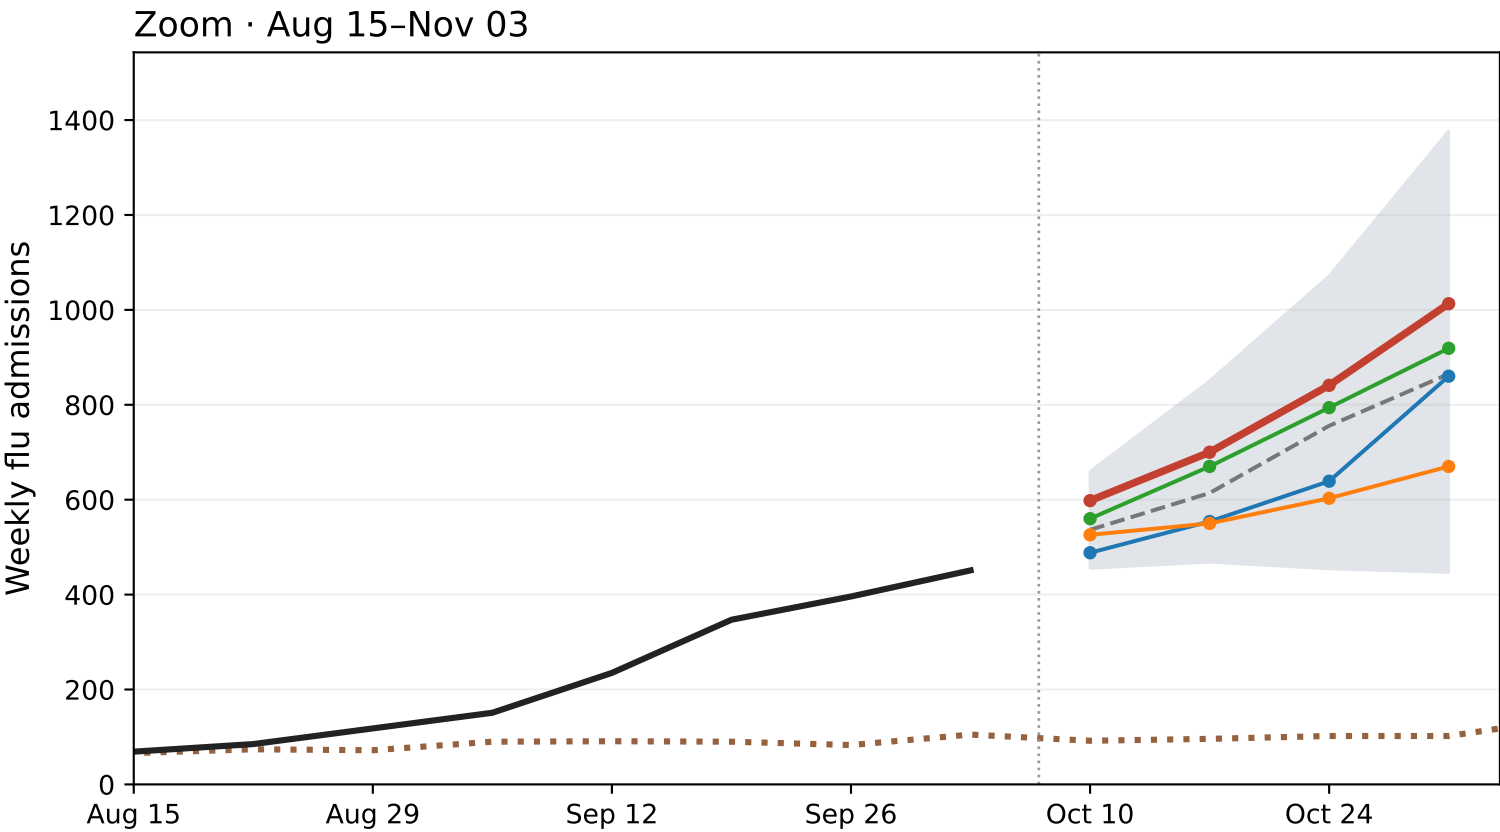

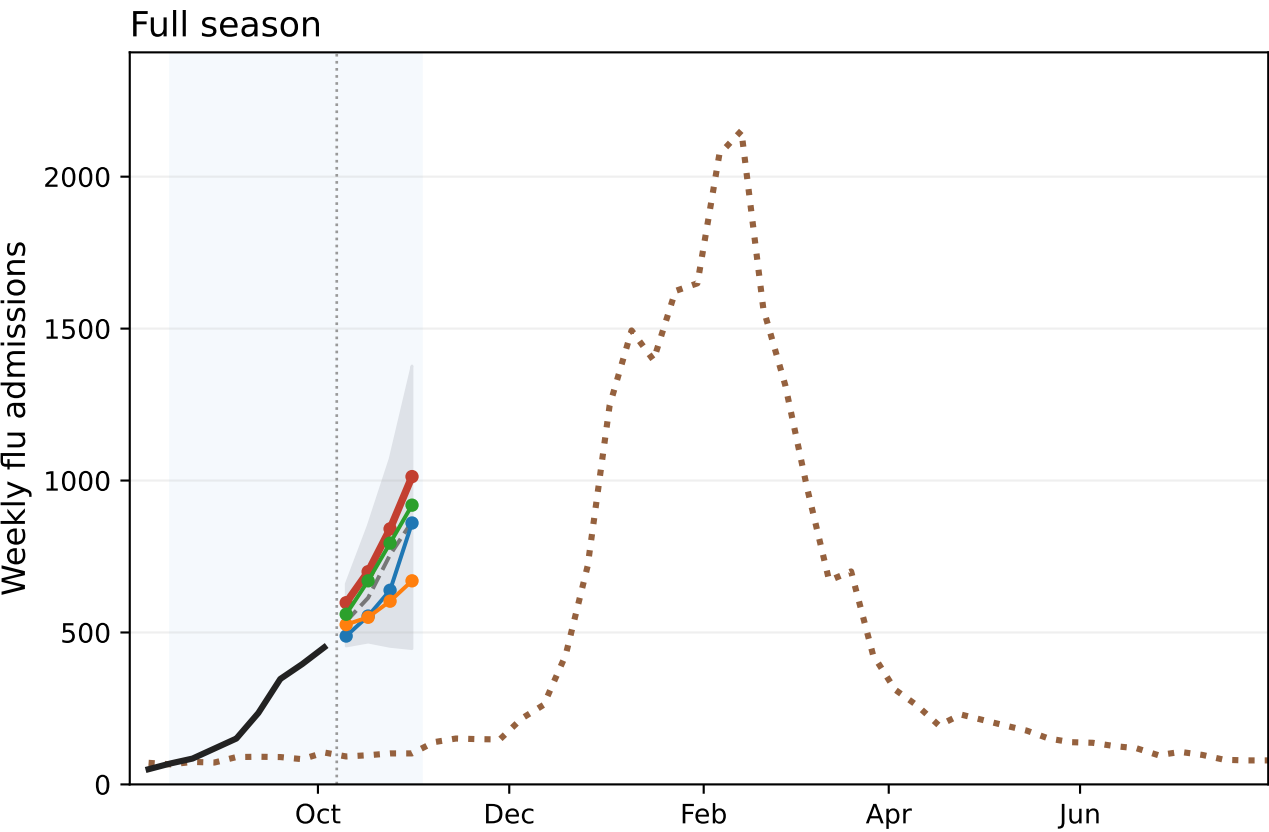

- 2025-26 observed, aligned by CDC week
- 2026-27 reported (preliminary)
- 10th-90th percentile of peer medians
- Median of peer medians
- ACCIDDA-EpiLoom
- CMU-TimeSeries
- UGA_flucast-INFLAenza
- NAU-vulPES

Medians only; gray band is peer disagreement, not a prediction interval. Each panel has its own linear scale.
History through 2026-10-03; prior season is aligned by CDC week, without rescaling (unmatched week 53 omitted).
Hub snapshot f66ce884; training/input descriptions and file hashes: manifest.json. Forecasts are unscored.

California · peer comparison · reference 2026-10-10
