

Matched output heads: lower WIS is better

MLP trained on tree-corrected synthetic histories + Kinsa

MLP trained on reporting errors + recent-history reconstruction

Mean of seeds 42/43. Finalized flu labels; training 2022-25 → evaluation 2025-26, and 2022-24 + 2025-26 → 2024-25.

Evaluation: Wednesday reports, newest two admission weeks tree-corrected, ED reported. Admissions seasons equal; ED relative score has 2025-26 only.
